

<u>NAME</u>	<u>Zip Code</u>	<u>COMMENT</u>
Barry		Keep the airport and get rid of Monica Rodriguez Quiet Birdman (QB) and AOPA are working together. Mr. Marshall shared <i>In Flight USA</i> Magazine article by Ed Downs and said could be of assistance to project team. https://www.inflightusa.com/all-articles/editorialletter
Barry	91342	Whiteman Airport has for the past 75 years has become a "fixture" in Los Angeles County. It houses many businesses that are revenue generators for both employees as well as the tax revenue for the City of Pacoima and Los Angeles County. The tenants include both federal as well as local government. The majority are "private services" which are mostly Los Angeles County residents.
Chuck	91214	The community airport is one of a kind, and I would hate seeing it ever close. I just found that there is free flights offered to children on weekends which I think is a very positive thing More opportunities for youth 14+ to learn about aviation careers.
Jeanine	91342	Wonderful community event.
Stephen	90068	Airports are an essential public resource, like national parks, they can't easily be replaced.
